MEMORANDUM FOR DISTRIBUTION

Subj: REVISED TOTAL FORCE MANPOWER MANAGEMENT SYSTEM (TFMMS) DECISION MATRIX AND ENLISTED BILLET QUALITY GUIDANCE MATRIX FOR ACTIVITY MANPOWER DOCUMENT (AMD) CHANGE REQUESTS

Ref: (a) OPNAVINST 1000.16J

Encl: (1) February 00 TFMMS Decision Matrix
(2) FY01 Enlisted Billet Quality Guidance Matrix
(3) FY01 TAR Enlisted Billet Quality Guidance Matrix

1. Per reference (a), enclosure (1) provides a detailed breakdown of policies and procedures, and is provided to assist manpower claimants in the submission of AMD change requests, by clarifying specific issues.

2. To ensure expeditious processing of manpower change requests, matrix guidelines must be strictly followed. Emphasis should be directed to include the manpower claimants consulting with points of contact as prescribed in the block, "Claimant Responsibility", and noting such liaison or information in the TFMMS packet Letter of Justification (LOJ), prior to submission of requests. Enclosures (2) and (3) are vital when adding, deleting, or otherwise requesting changes to enlisted billet authorizations. Manpower claimants must consult the appropriate FY01 Enlisted Billet Quality Guidance Matrices when determining the appropriate rating for the job while complying with current Sea Shore Rotation policy.

3. Questions concerning the prescribed policy can be directed to Ms. Roxanne Stanley, NAVMAC, Code 20, DSN 882-6395 or commercial (901) 874-6395 and Mr. Romeo Magpuri, NAVMAC, Code 20, DSN 882-6386 or commercial (901) 874-6386.

JOSEPH G. HENRY
Director, Total Force Programming,
Manpower and Information Resource
Management Division (N12)

TOTAL FORCE MANPOWER MANAGEMENT SYSTEMS (TFMMS) DECISION MATRIX FOR ACTIVITY MANPOWER DOCUMENT (AMD) CHANGE REQUEST(S)

This Decision Matrix provides clarification and modification to existing policy delineated in the current OPNAVINST 1000.16 series concerning the submission of manpower change request(s). Manpower requirements should reflect the minimum quantity and quality of manpower required to complete the task. All changes should be Mission/Function/Task (MFT) and/or workload based. Ensure that all possible outcomes are considered, responsibilities adhered to and appropriate justifications provided in the TFMMS packet prior to submitting the request.

Activities requesting changes will ensure compliance with the requirements and policy of this matrix in its entirety and will provide all information as required under the "Claimant Responsibility" column for due consideration. Manpower claimants and Navy Manpower Analysis Center (NAVMAC), acting on behalf of N12, will disapprove requests that are incomplete, do not adhere to these policies and do not provide the proper justification and supporting references for the actions requested.

For Joint Activities with AODC = J1, J2, J3, and J5, please refer to CNO (N12) Responsibility. Once approved through the Navy Planner (N3/N5), JS forwards Joint Tables of Distribution (JTD) and Joint Table of Mobilization Distribution (JTMD) to N123M for implementation into TFMMS.

Unless otherwise noted, this matrix applies to Full Time Support (FTS) and Selected Reserve (SELRES) manpower requirements.

Item	Desired Outcome	Claimant Responsibility	NAVMAC Responsibility	CNO (N12) Responsibility
	All Officers			
0-1	Growth using unqualitized end strength. (Item O-7 provides additional policy for paygrades 0-4 and above.)	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. When adding authorizations at paygrades O-4 and above obtain Defense Officer Personnel Management Act (DOPMA) concurrence from CNO N122E1 and ensure the applicable Officer Community Managers (OCM) have been advised and concurrence is provided prior to submission to NAVMAC. In the case of Full Time Support (FTS) and Selected Reserve (SELRES) Reserve Officer Personnel Management Act (ROPMA), concurrence must also be obtained from CNO N122E1/N122F. (See Notes 1 and 2)	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet and Officer Community Management (OCM) comment regarding execution and phasing. When adding authorizations at paygrades O-4 and above, verify claimants have obtained DOPMA/ROPMA concurrence from CNO (N122E1/N122F) and applicable OCM.	N122EN122F review DOPMA/ ROPMA grades prior to approval/disapproval of request based on validated requirements and justification to grow officer authorization. N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5. Coordinate with Joint Staff (JS) and other services on validation of new requirements. Coordinate DOPMA/ROPMA concurrence with N122E1 and OCM prior to approval.

FERS-5/N12 →→→ NAVMAC 003

Enclosure (1)

Item	Desired Outcome	Claimant Responsibility	NAVMAC Responsibility	CNO (N12) Responsibility
O-2	Growth to RL/Staff/LDO/CWO using Unrestricted Line (URL) as compensation or changes to existing URL designator coded authorizations to RL/Staff/LDO/CWO designators.	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain gaining and losing OCM comments and reference in Letter of Justification (LOJ) and provide e-mail as applicable. (See Notes 1 and 2)	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet and gaining/losing OCM comments. If OCM comments are not provided, packet will be returned for further input.	N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5.
O-3	Changes to existing authorizations with RL/Staff/LDO/CWO designators that is within the same designator.	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. (See Notes 1 and 2)	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet and OCM comments.	N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5.
*O-4	*Changes to existing 1100 (FSO) designator authorizations. See CNO WASHDC//N1 102342Z DEC 99, SUBJ: FLEET SUPPORT COMMUNITY UPDATE (See Note 2) *Denotes revision	Approve/Disapprove/Modify based on validated requirement and justification provided. Obtain concurrence and/or recommendations from CNO (N122E1). If justification sufficient and concurred with, submit TFMMS packet to NAVMAC and provide compensating authorization within the Fleet Support Officer (FSO) core competencies to be converted from the 1100 (FSO) designator. Requests that do not include proper 1100 (FSO) designator compensation will not be approved. (See Note 1)	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet and gaining/losing OCM comments. If OCM comments are not provided, packet will be returned for further input.	N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5.
O-5	Any compensation within RL/Staff/LDO/CWO that is not of the same designator (e.g., Legal to Supply). (See Note 2)	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain gaining and losing OCM comments and reference in LOJ, and or provide applicable e-mail. (See Notes 1 and 2)	Approve/Disapprove/Modify based on requirement and justification provided in TFMMS packet, and final OCM approval. If OCM comments are not provided, packet will be returned for further input.	N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5
O-6	Adding, changing or deleting 1130, 6150, 7150 designator (UDT/SEAL) authorizations.	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain OCM comments and reference in LOJ, and or provide applicable e-mail. (See Notes 1 and 2)	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet and OCM comments. If OCM comments are not provided, packet will be returned for further input.	N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5

Item	Desired Outcome	Claimant Responsibility	NAVMAC Responsibility	CNO (N12) Responsibility
O-7	Adding or changing an authorization paygrade to O-4 and above where equal pay grade compensation is not provided. (See Note 2)	Approve/Disapprove/Modify based on Justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain DOPMA concurrence from CNO (N122E1) and in the case of FTS and SELRES, ROPMA concurrence must also be obtained from CNO (N122E1) and OCM comment prior to NAVMAC receipt of TFMMS packet and reference in LOJ, and or provide applicable e-mail. (See Note 1)	Approved/Disapprove/Modify based on justification provided in TFMMS packet, CNO (N122E1) concurrence and OCM comment. If OCM comments are not provided, packet will be returned for further input.	N122E review DOPMA/ROPMA grades prior to next upgrade of this Matrix. N123M/N122F Approve, Disapprove, and Modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5.
O-8	AMD change requests for subspecialty code(s).	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Submit Subspecialty Validation Request form(s) to reach N131E1/BUMED (153) (as applicable) prior to NAVMAC receipt of TFMMS packet and reference in LOJ. (See Note 1)	Approve/Disapprove/Modify based on N131E1/BUMED (153) (as applicable) approval.	
O-9	AMD change request that affect Flag Officer	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain appropriate CNO/N00F (for Active Duty) and CNO(N951D) (for SELRES) concurrence prior to NAVMAC receipt of TFMMS packet and reference in LOJ, and or provide applicable e-mail. (See Note 1)	Approve/Disapprove/Modify based on CNO/N00F (for Active Duty) and CNO(N951D) (for SELRES) comment (as appropriate). If OCM comments are not provided, packet will be returned for further input.	N123M/N122F Approve, Disapprove, and Modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5. Ensure concurrence from CNO (N00F for active duty/ N951D for SELRES).

PERS-5/N12 →→→ NAVMAC 005

Item	Desired Outcome	Claimant Responsibility	NAVMAC Responsibility	CNO (N12) Responsibility
	Enlisted			
E-1	AMD actions that add, change or delete authorizations for: -Command Master Chief (CMC); -Command Career Counselor (CCC); -Exchange of Rating Between Sea and Shore Intensive Ratings. (See Item E-2 and Note 2)	Approve/Disapprove/Modify based on justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain concurrence from NPC-OOD (Asst to MCPON) and ECM prior to NAVMAC receipt of TFMMS packet and reference in LOJ. Obtain ECM concurrence for TAR and SELRES. NPC OOD concurrence not required. Ensure guidance provided in enclosures (2) and (3) are used in the rating selection process. (See Note 1)	Approve/Disapprove/Modify based on justification provided in TFMMS packet and PERS-OOD (Asst to MCPON) or applicable BUPERS POC comment, or as per Enlisted Billet Quality Guidance Matrix (See enclosure (2)). If ECM was not referenced in LOJ, obtain ECM chop. If sufficient reference to ECM, N13, N12, Pers 00D is NOT provided, return packet for further review	N122E review Deprived and Undermanned Ratings (Enlisted Billet Quality Guidance Matrix in enclosure (2)) semiannually. N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5. Obtain concurrence from PERS-OOD (Asst. to MCPON) and ECM.
E-2	Adding or changing an authorization pay grade to E8 or E9 where equal pay grade compensation is not provided. (See Note 2)	Currently, the Navy is at the maximum number of E8 and E9 billets allowed by law. Growth in E8/E9 billets without compensation will not be approved, with the exception of FTS and SELRES billets. Due to relatively small number of senior enlisted TAR billets, ECM approval is required before making changes to E8 and E9 authorizations. Approve/disapprove/modify based on justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. (See Note 1 and 5)	Disapprove uncompensated requests. Approve/disapprove/modify TAR/SELRES requests based on justification provided in TFMMS packet and Enlisted Community Management (ECM) comment.	N122E review E8/9 ratios prior to next update of this matrix. Validate request based on justification provided. N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5 and obtain NPC-OOD concurrence. Currently, E8/E9 ACDU billets are at the maximum number allowed by law. All requests must have ECM concurrence.
E-3	Adding, changing or deleting NEC 532X (SEAL)/NEC 535X (SWCC) authorizations. (See Note 2)	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain ECM comments and reference in LOJ.	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet and ECM comment. If ECM has not been contacted, packet will be returned for further input.	N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5 and obtain ECM concurrence.
E-4	Adding, changing or deleting FAC "G", "K", "H", "I", or "N" and the current authorization rate/rating. The change must comply with the Enlisted Quality Guidance Matrix in enclosure (2). (Applicable to both Fleet and Shore billets).	Approve/Disapprove/Modify based on validated requirement and justification provided. Obtain concurrence and/or recommended modifications from CNO (N122E2) prior to NAVMAC receipt of TFMMS packet and reference in LOJ.	Approve/Disapprove/Modify based on validated requirements and justification provided in TFMMS packet and N122E/N132 (ECM) comment. Changes must be chopped through assigned NAVMAC action officer in Code 20 (AMD Assessments Team) prior to update.	N122E review, approve/disapprove request based on validated requirement and justification provided. N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5. Obtain concurrence and/or recommended modifications from N122E.
***E-5**	Adding, changing or deleting FAC "V", FAC "Z", and the current authorization rate/rating. *Denotes new item/or revision	Approve/Disapprove/Modify based on validated requirement and justification provided. Obtain concurrence and/or recommended modifications from CNO (N122E2) prior to NAVMAC receipt of TFMMS packet and reference in LOJ.	Approve/Disapprove/Modify based on validated requirements and justification provided in TFMMS packet and CNO (N122E2/N132[Submarine ECM]) comment. Request must have N122E2/EM aproval or request will be returned for further review.	N122E review, approve/disapprove request based on validated requirement and justification provided. N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC=J1, J2, J3, and J5. Obtain concurrence and/or recommended modifications from N122E.

→→→ NAVMAC 006

Item	Desired Outcome	Claimant Responsibility	NAVMAC Responsibility	CNO (N12) Responsibility
	Officer/Enlisted			
A-1	AMD change requests that affect the minimum duration of the billet authorization (minimum tour length).	Approve/Disapprove/Modify based on justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Ensure that end strength is available for a minimum three year tour. This is not applicable where activity prescribed tour is less than three years, when authorized/directed by Resource Sponsor, or to extend funding on already existing authorizations. Explain exceptions to three year rule in LOJ.	Implement based upon justification provided. Without sufficient justification, request will be disapproved or returned for modification.	N122E review request prior to approval/disapproval based on justification provided, as required. N123M/N122F approve, disapprove, and modify active duty/reserve billet changes for Joint activities with AODC = J1, J2, J3, and J5. Ensure end strength is available for a minimum three-year tour. This is not applicable where activity prescribed tour is less than three years, when authorized by Resource Sponsor, or to extend funding on already existing authorizations.
A-2	Resource Sponsor reprograms new end strength to a UIC prior to TFMMS packet submission. Not applicable from one UIC to another.	Approve/Disapprove/Modify based on justification provided. If justification is sufficient and concurred with, submit TFMMS packet to NAVMAC. Resource Sponsor action to obtain required end strength from CNO (N122E3) must be reflected prior to TFMMS packet submission to NAVMAC and referenced in LOJ.	Approve/Disapprove TFMMS packet based on end strength in TFMMS and justification provided in TFMMS packet. Without sufficient reference to growth and ECM/N122E approval, as applicable, packet will be returned for further review.	N123M/N122F compare JTD/JTMD changes to available end strength for JMP/DOD MP-13D/Peacetime Establishment activities (J1, J2, J3 and J5). If there are discrepancies in these activities Coordinate with the activities, resources sponsor liaisons, and N122E3 to resolve. Discrepancies in activities coded J4, J6, J7 and J8 are resolved by claimants.
A-3	AMD change requests that affect Medical Requirement/Authorization outside BUMED Claimant. (See Note 2)	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, obtain BUMED (153) concurrence prior to TFMMS packet submission to NAVMAC and reference in LOJ. (See Note 1)	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet and chop from BUMED(153).	N123M/N122F approve, disapprove, and modify billet changes for JMP/DOD MP-13D/Peacetime Establishment activities (J1, J2, J3 and J5) and obtain BUMED (153) chop.
A-4	AMD change requests which contain Personnel Exchange Program (PEP billet(s)). (See Note 2)	Approve/Disapprove/Modify based on validated requirement and justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Obtain chop from CNO (N122D2) prior to TFMMS packet submission and reference chop in LOJ. Any and all changes which affect PEP billets or PEP compensation (FAC X billets) should be initiated by or receive concurrence from N130F. (See Note 1)	Approve/Disapprove/Modify based on results of CNO (N122D2) chop. Without appropriate justification and chops, request will be returned for further revew.	N123M validate PEP billet change request.

PERS-5/N12 +++ NAVMAC 007

Item	Desired Outcome	Claimant Responsibility	NAVMAC Responsibility	CNO (N12)
A-5	AMD change requests that move Navy Working Capital Funds (NWCF)/Defense Working Capital Funds (DWCF) billets, FYDP end strength, or Transportation Working Capitol Fund (TWCF) See Note 4. Applies to MPN only.	Approve/Disapprove/Modify based on justification provided when destination is a NWCF/DWCF UIC with same AGSAG/PE. When destination UIC has a different NWCF/DWCF AGSAG/PE or is Non-NWCF/DWCF, hold packet and submit a request to ASN(FM&C) (FMB-4) and CNO (N122E3) requesting an end strength move. Submit packet to NAVMAC when FYDP has been posted in destination UIC. The LOJ shall provide details of the FYDP move.	Approve/Disapprove based on justification provided and verification of commonality of destination UIC, AGSAG/PE or that end strength has been moved by CNO (N122E3). If information does not comply, packet will be returned for further coordination with N122E3.	N122E Approve/Disapprove requests and move FYDP end strength as appropriate. N123M/N122F Approve, Disapprove, and Modify billet changes for Joint activities with AODC = J1, J2, J3, and J5 that are programmed TWCF/DWCF. Upon approval, N123M will process changes to J5 activities. J1-J2 activities will be forwarded for approval through the Navy Planner (N3/N5) and processed upon receipt of the implementing Joint Table of Distribution (JTD).
A-6	AMD change requests which reflect growth in total officer and/or enlisted SELRES authorizations in TFMMS.	Approve/Disapprove/Modify based on validated requirement and justification provided. SELRES growth is now a "zero sum gain" proposition. End strength compensation for new growth MUST be provided just as in MPN. Obtain CNO (N122F) comment. If justification sufficient and concurred with and if SELRES end strength is in place, submit TFMMS packet to NAVMAC and reference in LOJ. (See Notes 1 and 2)	Approve/Disapprove/Modify based on validated requirement and justification provided by claimant. Obtain CNO (N122F) comment or concurrence.	N122F Approve, Disapprove, and Modify reserve billet changes for Joint activities (AODC = J1, J2, J3, J5.
A-7	Add and/or change to an authorization effecting distribution in the current year as follows: 1. Additions of new authorizations 2. Changing UIC's on existing authorizations 3. Phasing in of new NEC's 4. Rank/Rate/Paygrade/Designator conversions, or replacements 5. Changing MRC's (i.e., MPN to RPN, CIV to MIL). 6. Changes should not be made to encumbered authorizations that would result in unplanned PCS moves or personnel remaining in existing UIC's after authorizations are removed unless coordinated with NPC-4 and EPMAC (COMNAVRESFOR N11 in the case of SELRES and NRPC-30 in the case of TAR enlisted) as noted in LOJ. (See Note 3)	Approve/Disapprove/Modify based on justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. Ensure authorization effective Begin Date (BGN DT) on changes effecting distribution, is nine months from date packet is submitted, and justification as reflected in the Letter of Justification (LOJ). Ensure a change to an authorization is not utilized to gain "two bodies for one authorization". (See Note 3)	Approve/Modify BGN DT where applicable following guidelines for claimant submission or implement based on CNO (N12) prior approval of a specific BGN DT. Obtain ECM/OCM chop as applicable.	N122 Approve/Disapprove request of authorization as appropriate on a case-by-case basis. N123M/N122F Approve, Disapprove, and Modify billet changes for activities with AODC= J1, J2, J3, andJ5. Coordinate with activity and detailers for these activities to ensure change is not utilized to gain "two bodies for one authorization."

PERS-5/N12 → NAVMAC 008

Item	Desired Outcome	Claimant Responsibility	NAVMAC Responsibility	CNO (N12) Responsibility
A-8	TFMMS package balancing for QUAN/QUAL/Level of Aggregation (LOA) of a Unit Identification Code (UIC).	Approve/Disapprove/Modify based on justification provided. If justification sufficient and concurred with, submit TFMMS packet to NAVMAC. To balance QUAN/QUAL summary, include in TFMMS packet all transactions that will balance the activity. Where possible, transaction(s) should also be included in the TFMMS packet that will balance to the UIC Level of Aggregation (LOA). (LOA is defined by the following data elements: UIC, Activity group/sub-activity group, Program Element (PE), resource sponsor, manpower resource code, and manpower type.)	Upon receipt of a TFMMS packet containing strength impact, NAVMAC will confirm that a billet summary has been generated. If the billet summary transaction is showing an error, then the packet will be returned to the claimant for resolution. Approve/Disapprove transactions as applicable where QUAN/QUAL is balanced to LOA.	N123M/N122F coordinate with the Joint Staff, activity, and resource sponsors as necessary to initiate TFMMS packets that will balance Joint UICs to the Level of Aggregation (LOA) for Joint activities with AODC= J1, J2, J3, and J5.
A-9	AMD change requests which contain Additional Duty (ADDU) billets.	Approve/Disapprove/Modify based on validated requirement and justification provided. Ensure both the primary billet (i.e., the "ADDU TO" billet) and the "ADDU FM" billet are in the same packet and addressed in LOJ. If relationship crosses claimancies, route packet to other claimant or reference contact when appropriate prior to submission to NAVMAC and reference in LOJ. (See Note 1)	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet.	N123M coordinates with Joint activities and claimants to ensure ADDU relationships are properly reflected in TFMMS for Joint activities with AODC=J1, J2, J3 and J5.
*A-10	AMD change requests which support or are the result of Commercial Activities (CA) decisions or requests which may impact such initiatives. To include affected MPN/RPN and CIVs/FTEs(OMNV). Note: These billets include R1 "U", R1 "C", and AC "E" when applicable. See CNO WASHDC//N12 0213487 JUL 98, SUBJ: SUBMISSION OF TFMMS CHANGE REQUESTS AFFECTING MILITARY BILLETS *Denotes new item or revision	Approve/Disapprove/Modify based on validated requirement and justification provided. Obtain concurrence and/or recommended modification from N122D3 and N46, respectively prior to NAVMAC receipt of packets and reference in LOJ.	Approve/Disapprove/Modify based on validated requirement and justification provided in TFMMS packet, ECM/OCM and N120/N122E comments. Changes should be chopped through the assigned NAVMAC action officer in Code 20 (AMD Assessments Team) prior to update. TFMMS packets should only include transactions related to CA decisions or requests. No others. LOJs must specifically address as a CA action.	Approve/Disapprove contentious requests.

PERS-5/N12 →→→ NAVMAC 009

Notes:

1. (a) Letter of Justification (LOJ) MUST include the following: A detailed (group transactions as applicable) summary of changes being requested, whether the requirement has been validated, justification for the request to include changes to Mission/Function/Task (MFT) and/or workload supporting the change, and specific qualifications required for the job that justifies the requested change. Provide specific points of contact with office codes for all telephone references.

(b) Manpower changes for Joint Activities' AODC= J4, J6, J7, J8 and Program 11 (Special Operations) that are within AODC= J1 should be coordinated by the claimant. Manpower Claimant will request N123M forward a pre-established TFMMS packet so that claimant can make required changes to billets, end strength, activity, and manpower. Once packet transactions have been completed, claimant release packet to N123M for approval, final release, and update to billet file.

2. Fleet manpower requirements in the case of Fleet (Fleet manpower Document (FMD), Ship Manpower Document (SMD), Squadron Manpower Document (SQMD)) Activities are developed by NAVMAC and approved by CNO (N12). Authorizations within these activities will not be used for compensation to support shore initiatives. Manpower growth or changes that impact FMD/SMD/SQMD activities must be based on changes to mission/Required Operational Capabilities (ROC)/Projected Operational Environment (POE) tasking(s).

3. The Enlisted Personnel Management Center (EPMAC) receives Billet Authorization (BA) change tapes from NAVMAC on a weekly basis. EPMAC reviews, then loads all BA changes into their Readiness Information System (RIS). If authorizations become effective within nine month window, a Navy Manning Plan (NMP) with effective change date of nine months from current month (P9) is applied automatically to authorizations. NMP will be applied to outyear authorizations to allow assignment of personnel upon effective date of the authorization (assuming there is a body for authorization at that time). EPMAC's action does not change the TFMMS authorization file, or the effective date of BA; it adjusts the NMP of the billet by not allowing NMP to float earlier than P9. This nine month lead time allows the personnel distribution system sufficient time to detail a personnel asset to the command. If the nine month lead time is not sufficient, commands may coordinate through their chain of command, including their Manning Control Authority for possible earlier personnel relief. Ensuring Claimants use an effective Begin Date nine months from the date the packet is submitted will reiterate to commands that body for authorization will not be immediately available upon request. Unless coordinated with CNPC (Pers-4) and EPMAC as noted in LOJ, changes will not be made to encumbered billets that result in unplanned PCS moves or personnel remaining in an existing UIC after authorizations are removed. (Contact NRPC-30 in the case of TAR enlisted and COMNAVRESFOR N-11 in the case of SELRES). Note: SELRES authorizations MUST adhere to like stability requirements, i.e., authorizations placed in activities for at least a normal three year tour of duty.

Although placement of end strength should occur before Execution and budget years (see Item A-7), claimants have three months **only** at the beginning of each fiscal year (October-December) to place excess end strength behind unqualitized requirements for that fiscal year.

4. FYDP in the Navy Working Capital Funds (NWCF) and Defense Working Capital Funds (DWCF) UICs are controlled by the Office of the Secretary of Defense (OSD). These reimbursable UICs are identified with a claimant code of XXA8 and MARP 8063, 8064 (NWCF), and MARP 8065 (DWCF). NWCF/DWCF FYDP can be moved in TFMMS between NWCF/DWCF UICs with the same AGSAG/PE. Moving end strength to a different AGSAG/PE or from NWCF/DWCF to Non-Working Capital Funds (WCF) cannot be done in TFMMS. These transactions shall only be accomplished through the programming and budgeting process, and approved by CNO (N122E3)/MPN Accounting Sec/Ms. Debbie Brascher, DSN: 225-3647 or COM (703) 695-3647. NWCF/DWCF UICs have budgets assigned to them for two years (CFY and FY1). These are locked years and end strength moves SHOULD NOT be requested. If changes are desired, they will only occur in the Program Objectives Memorandum (POM)/Program Review (PR) years (FY2-FY6) or as appropriate, using a Program Budget Decision (PBD) or POM/PR/Summer Budget Issue.

PERS-5/N12 →→→ NAVMAC 010

5. ENLISTED BILLET QUALITY GUIDANCE MATRIX

Notes:

a. The Enlisted Billet Quality Guidance matrix shows the sea/shore rotation posture of ratings (given the E5 – E9 billet base) and the projected petty officer (E4 – E9) manning status. The matrix, broken down further by rate, serves as a ready reference for billet changes to improve each rating's sea/shore rotation and manning.

- The CT group has been deleted from the matrix. By design, the cryptologic community is shore-based and shore duty intensive. For this reason, CT(X) ratings operate on an OUTCONUS/CONUS rotation rather than a sea/shore rotation. Since virtually all billets within the community are operational, in-rate assignments, billet adjustments should not be made on the basis of sea/shore rotation. Manpower claimants should contact the CT(X) community manager, OPNAV N132D8, for guidance in changing billet assignments for CT ratings.

- Although the IS rating is shore intensive, a substantial number of IS shore duty billets are joint billets. Manpower claimants should contact the IS rating technical advisor, ISCM(AW) Bennett (OPNAV N132D17A) at (703) 693-1226 before changing any billet assignments for the IS rating.

b. Manpower claimants shall use the TAR Enlisted Billet Quality Guidance Matrix, enclosure (3), when adding, deleting, or changing TAR enlisted manpower authorizations.

- Due to the relatively small number of senior enlisted TAR billets, manpower claimants should contact the TAR community manager (Surface (703) 695-3905, Aviation (703) 614-6646) before changing billet assignments for TARs in paygrades E7-E9.
